

Special Issue

Impact of Processing Conditions on the Biological Activity and Quality of Foods

Message from the Guest Editors

Nowadays, scientific research and the food industry are working on novel products based on fruits and vegetables, due to the preference of consumers on sustainable, healthy and ready-to-eat products. Current research challenges are focused on the study of the biological activity of processed foods. As a result of this, the present Special Issue is aimed at gathering outstanding cross-disciplinary approaches (reviews and original research) evaluating the impact of processing conditions (drying, heat treatments, etc.) on the biological activity (e.g., α -amylase, α -glucosidase, pancreatic-lipase, AChE and butyrylcholinesterase activity) and quality properties (e.g., color, texture properties and sensory characteristics) of these processed products.

Guest Editors

Dr. Ángel Calín-Sánchez

Prof. Dr. Angel A. Carbonell-Barrachina

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
