

## Special Issue

# Processing, Preservation and Analysis of Seafood Products

### Message from the Guest Editor

Fisheries and aquaculture are very important for the provision of food, income, and livelihoods for hundreds of millions of people worldwide and it is predicted that it will contribute significantly to food security and nutrition for 9.7 billion people by 2050. However, up to 35% of seafood produced globally each year is wasted due to pre- or post-harvesting problems, including handling, processing, storage, and distribution steps, usually related to safety or spoilage aspects. This Special Issue presents up-to-date knowledge regarding current and emerging technologies in aquatic food processing and preservation, with advances in analyses towards safety, shelf-life extension, quality assurance, and detection of adulteration. By developing and employing innovative approaches, researchers can provide new knowledge of seafood technology and analytical or management tools to benefit individuals, industries, and communities involved in the seafood industry supply. This Special Issue welcomes original research articles and reviews related to this topic.

### Guest Editor

Prof. Dr. Ioannis S. Bozaris

Lab of Marketing and Technology of Aquatic Products and Foods, Dept. of Ichthyology and Aquatic Environment, School of Agricultural Sciences, University of Thessaly, Volos, Greece

### Deadline for manuscript submissions

closed (20 August 2021)

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
