

Special Issue

Future Perspectives and Challenges in Food Chemistry: Selected Papers from XIII Italian National Congress of Food Chemistry

Message from the Guest Editors

Food Chemistry, in its many aspects, is the main topic of the XIII Italian National Congress of Food Chemistry to be held in Marsala, Sicily. This Special Issue is dedicated to Prof. Giacomo Dugo, Emeritus Professor at the University of Messina in Sicily and to his contribution to Food Chemistry. He is among the main iconic protagonists of the growth and development of Food Chemistry at many levels, ranging from scientific research to the on-field applications and dissemination of the knowledge regarding foods and food chemistry. Food Chemistry is growing, and its multidisciplinary nature can be a key tool to face the challenges ahead in terms of improving food quality, analysis, sustainability, and safety. At the same time, aspects involving food waste reduction, by-products of the food chain reuse, food supplements, nutraceuticals, novel foods, and beneficial substances contained in foods and their mechanism of action are among the topics of the Congress. We invite contributions of papers to this Special Issue, which collects the works presented at the Congress and is open to all contributions within the above-mentioned topics.

Guest Editors

Prof. Dr. Antonello Santini

Department of Pharmacy, University of Napoli Federico II, Via D. Montesano 49, 80131 Napoli, Italy

Prof. Dr. Giuseppa Di Bella

Department of Biomedical and Dental Sciences and Morphofunctional Imaging, University of Messina, 98168 Messina, Italy

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
