Post-Harvest and Processing Methods to Retain Agri-Food Quality and Nutritional Value

Message from the Guest Editors

This Special Issue on "Post-Harvest and Processing Methods To Retain Agri-Food Quality and Nutritional Value" aims to explore innovative techniques and methods that ensure the maintenance of quality and nutritional value in agri-food products post-harvest. Topics of interest include, but are not limited to, the impact of post-harvest treatments on nutritional quality, preservation methods, shelf-life extension, and the role of technology in reducing post-harvest losses. Contributions that provide insights into sustainable and efficient practices in agri-food systems are particularly encouraged. Emphasis will be placed on sustainable practices that not only enhance quality and nutritional value but also reduce waste and improve the overall efficiency of the supply chain. Innovative approaches to cold storage, packaging, drying, and minimal processing will be highlighted, along with case studies demonstrating successful applications of these methods in various agricultural contexts. This Special Issue aims to serve as a comprehensive resource for researchers, practitioners, and policymakers working towards a more resilient and nutritious food system.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
