Chemical Contaminants in Food: Toxicology, Risk Assessment, and Safety Strategies

Message from the Guest Editors

Dietary intake is considered the primary source of exposure to these pollutants. Long-term exposure through food consumption can lead to intoxication and result in various adverse effects on human health. Analyzing these substances is essential to determine their presence in the environment and food, as well as to conduct risk assessment studies aimed at evaluating their impact on consumer health. The aim of this Special Issue is to gather original research articles and reviews on the quantification of environmental contaminants in food using modern analytical methods, as well as the evaluation of risk characterization for the purpose of consumer food safety.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
