Advances in Postharvest Technologies for Quality Improvement and Shelf Life Extension of Fruits and Vegetables

Message from the Guest Editors

The complexity of the supply chain (harvesting, transportation, grading storage, industrial processing, market distribution, handling by consumers) affect the rate and the ratio of this phenomena. Thus, new approaches, solutions and mitigating actions to the agri-food system is need needed also to meet the Sustainable Development Goals (SDGs) specifically, goal 2 addresses to no hunger reducing food loss ad wastes that must be achieved by 2030 by all the members of the United Nations (UN). The present Special Issue aims addresses the solutions towards sustainability and resource optimization strategy in the sector of fruit supply chain and post harvest Technologies for Quality Improvement and Shelf Life Extension of Fruits and Vegetables. Works and papers focusing on the multidisciplinary approach and the green technology innovation will be encouraged.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
