

Special Issue

Advancements in Detection, Toxicological Effects, and Risk Assessment of Mycotoxin Producer's Fungi and Mycotoxin Contamination in Foods

Message from the Guest Editor

Mycotoxins are food contaminants caused by fungi and can seriously threaten the health of humans and animals. Much research has been done on mycotoxins, but there is still little information on the aspects and effects of multimycotoxins on human health. Research on the origin, causal agents, taxonomy, detection methods, toxicity and decontamination of nutritional ingredients and foods will be of great expectation for this edition. Therefore, the aim of this special issue is to provide a broader perspective on the latest scientific advances in the field of mycotoxins, from the methodological aspects of fundamental research to the applied research. We welcome original research and review articles on all topics mentioned above, but not limited only to these subjects.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
