

## Special Issue

# Thermal Processing of Food Products

### Message from the Guest Editor

The thermal processing of foods is a very critical area of importance in the commercial production of preserved foods. In order to render processed foods shelf stable, multiple factors need to be considered in order to assure food safety. Our goal is to publish original papers contributing to the knowledge of thermally processed foods. Scientific works to be accepted include but not limited to the following areas: Thermo bacteriology, thermal process designs, food packaging of canned foods, food laws and regulations, validations studies in commercial sterilization and pasteurization, effects of thermal processing on the nutritional and sensory attributes of foods, and thermal processing methods.

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
