Innovations and Advances in Coarse Cereals: Nutritional Aspects, Functional Properties, and Processing Technology

Message from the Guest Editors

This Special Issue seeks to explore the multifaceted aspects of coarse cereals, emphasizing their nutritional significance, functional properties, and the changes in their qualities during processing. We welcome research that examines the quality characteristics and processing adaptability of coarse cereals, investigates the transformation and control of active ingredients during cereal processing, and develops innovative processing technologies to enhance the value of coarse cereal products. Additionally, we encourage studies on comprehensive utilization technologies that maximize the benefits of coarse cereal resources. By highlighting recent advancements, this Special Issue aims to foster a deeper understanding of coarse cereals, promoting the development of high value-added cereal products and sustainable utilization practices.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
