

## Special Issue

# Innovative Technologies for Food Preservation and Microorganism Inactivation

### Message from the Guest Editor

In the 21st century, the food industry is facing various environmental changes. In particular, during and after the COVID-19 era, the food industry continues to be threatened by various pathogenic bacteria, viruses, and unidentified microorganisms. In addition, the types of new foods available are becoming more diverse. Accordingly, in the food industry, there is a demand for the development of new technologies to effectively control various microorganisms while minimizing the impact on food quality. This Special Issue will cover diverse innovative technologies, including physical and biological treatments to enhance food safety as well as food quality.

---

### Guest Editor

Dr. Jaewoo Bai

Department of Food Science and Technology, Division of Applied Food System, Seoul Women's University, Seoul 01797, Republic of Korea

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
