

Special Issue

Enzymatic Technologies for the Food Industry

Message from the Guest Editors

Within the booming food biotechnology industry, enzymes are crucial for improving the structure of food products. New developments in biotech have transformed enzyme technologies to meet the food industry's changing demands. There has been a strong push for innovation in enzyme discovery and the creation of customized enzymes for food applications. Modern enzyme informatics tools help us design enzyme structures and understand their reaction mechanisms through simulations. The combination of enzyme informatics and high-throughput technologies also further boosts the compatibility of the biotransformers used in catalytic reactions. This Special Issue aims to explore the latest frontiers in enzyme technology, showcasing how it endows biocatalysts with diverse functions and generates new opportunities in the food biotechnology sector.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
