Factors Impacting Meat Product Quality: From Farm to Table—2nd Edition

Message from the Guest Editors

The quality of meat products is influenced by many factors throughout the production process, from the farm to the table. Recent studies have focused on how feed additives, pre-slaughter stress, genetic variations, packaging technologies, animal breeds, processing techniques, and animal welfare practices may affect the quality of meat and meat products. However, understanding the influence of each stage and its interactions is crucial for ensuring the highest standards of meat quality, encompassing aspects such as flavor, tenderness, juiciness, and safety. In summary, meat quality is a complex interplay of factors, from animal genetics and nutrition, through humane handling and efficient processing to careful storage and preparation. Therefore, this Special Issue welcomes the submission of manuscripts from all food-related fields that deepen our knowledge of delivering consumers high-quality, safe, and delicious meat products.

Guest Editors

Dr. Leilson Rocha Bezerra

Veterinary Medicine Academic Unit, Campina Grande Federal University, Patos 58708-110, PB, Brazil

Dr. Cláudio Vaz Di Mambro Ribeiro

School of Veterinary Medicine and Animal Science, Federal University of Bahia (UFBA), Salvador 40170110, BA, Brazil

Deadline for manuscript submissions

10 October 2026

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.8 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
