

Special Issue

Intelligent Packaging Solutions for Fresh Foods

Message from the Guest Editors

Intelligent packaging has evolved over the years to address challenges in the preservation and distribution of fresh foods, such as sensors, indicators, and smart materials. This Special Issue aims to explore innovative solutions in intelligent packaging to monitor and maintain quality and safety, including cutting-edge research on real-time freshness indicators, nanomaterials, and IoT-based systems for tracking and monitoring food conditions, and those that allow consumers to interact with packaging, providing other information that might be relevant but not indicative of the quality or safety of the product. Therefore, this Special Issue on “Intelligent Packaging Solutions for Fresh Foods” invites researchers to submit their original research articles, comprehensive reviews, or mini-reviews with the aim of providing innovative solutions in intelligent packaging.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
