

Special Issue

Research on the Nutrition and Function of the Bioactive Components of Foods

Message from the Guest Editors

With the remarkable advances in biotechnology, various types of drugs have been developed that can treat or prevent existing diseases. However, in addition to its main role in providing nutrition, food remains important in our daily life by preventing diseases threatening our well-being or significantly improving chronic diseases through daily intake. Therefore, the current Special Issue will focus on the health-promoting effects of various food-derived bioactive compounds and their comprehensive mechanistic studies. This issue covers a broad spectrum of substances in foods, including edible single compounds, plant extracts and probiotics such as *Lactobacillus*. Research on improving their activities will also be a valuable topic for this issue as well. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
