

## Special Issue

# Water and Food Safety during COVID-19 Pandemic

### Message from the Guest Editor

In the last few years and due to the COVID-19 pandemic, there have been changes in the quality monitoring needs for water and food quality and safety. The greatest changes are found in raising the awareness of competent bodies, scientists, and related professionals to apply stricter quality control protocols. The provision of safe drinking water, the safeguarding of the food chain throughout the production to the consumer's table, and the proper management of waste resulting from the above activities are the main pillars for a safe environment for all.

In this Special Issue of *Foods*, we encourage the submission of manuscripts focused on all aspects of water and food safety: the validation of analytical procedures for determining new pollutants in water and/or food; the aspects of the COVID-19 pandemic affecting the water and food industry; the implementation and effectiveness of quality monitoring systems; the assessment of the impact of water and food safety on the wider effort to contain and control the pandemic.

---

### Guest Editor

Dr. Matthaios P. Kavvalakis

Laboratory of Toxicology, Medical School, University of Crete, 71003 Heraklion, Greece

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
