

Special Issue

Nuts: A Sustainable Raw Material for Food Innovation and Beyond

Message from the Guest Editors

Nuts represent a valuable and sustainable resource with a wide range of applications in both food and non-food sectors. Rich in essential nutrients, bioactive compounds, and functional properties, nuts are increasingly being incorporated into innovative food products that cater to health-conscious consumers and specialized diets, such as vegan and gluten-free. Beyond their nutritional value, nut by-products—including shells, skins, and press cakes—offer untapped potential for use in bioplastics, cosmetics, nutraceuticals, and other eco-friendly solutions. This Special Issue aims to explore the multifaceted potential of nuts in the context of food innovation, sustainability, and circular economy principles. We welcome research focused on technological advancements in nut processing, novel product development, the extraction of bioactive compounds, and environmental impact assessments. Contributions may also address the valorization of nut industry by-products and the role of nuts in promoting sustainable food systems.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
