

Special Issue

Exploring Local Foods and Its Supply Chains: Resilience, Autonomy and Sustainability

Message from the Guest Editor

This Special Issue focuses on the topic of local food systems and their supply chains. The issue includes articles exploring the concept of food autonomy, nearshoring, and friend-shoring as strategies for supporting local food demand. The issue will discuss the challenges of building sustainable and resilient local food systems and the opportunities for reducing the carbon footprint of food production and transportation. Articles could examine the role of local food systems in promoting social and economic equity, as well as an improvement in food security and community health. The issue also revisits the concept of supply chain management and explores ways to support local food systems.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
