

## Special Issue

# Application of Chromatography to Food Analysis

### Message from the Guest Editors

Special Issue on “Application of Chromatography in Food Analysis” is a unique opportunity to gather the state of the art of chromatographic methods to control the safety and bioactivity of foods. This topic involves scientific communities working in pest control, the analysis of residues of pesticides and chemicals in foods, and also those laboratories working on the revalorization and characterization of bioactive compounds from any food commodities, providing an overview of the main trends in the area. Therefore, papers dealing with both chromatographic method development and the application of chromatographic methods on food topics, including raw materials, are welcome. Additionally, papers discussing the results from chromatographic analyses on food products or raw materials for food production will be included.

### Guest Editors

Prof. Dr. José Bernal del Nozal

## About the Journal

### Message from the Editor-in-Chief

*Foods* (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

---

### Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

#### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
