

Special Issue

Dynamic Modelling and Simulation of Food Systems

Message from the Guest Editors

This Special Issue aims to gather research developing dynamic mathematical models describing relevant factors of food processes. We invite authors to submit original research papers or comprehensive review papers related with the mathematical modeling of food processes from the perspectives of food safety (chemical or microbiological), food quality (organoleptic or nutritional), cleaning and disinfection, energy consumption, and resources waste. The Special Issue is not limited to model development, and we also welcome papers that use mathematical models to improve food processes. This includes decision-making tools, optimization, characterization of uncertainty/variability of model predictions, model simulation techniques, software sensors, and software development.

Guest Editors

Dr. Carlos Vilas

Dr. Miriam R. García

Dr. Jose A. Egea

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
