

Special Issue

Food, Environment and Health Challenges

Message from the Guest Editors

The topic of food composition and toxicology is directly connected with environmental conditions and is reflected in human and animal health. Another point of view is related to different environmental conditions that influence food production/food processing/food quality/food safety, and specific detection methods that are required to characterize the food. Herbal medicine, local/traditional food, functional food, and food supplements are part of healthy and complete food intake, and for the prevention and/or treatment of a disease. A healthy lifestyle and consumer behavior are important to be understood by people and food manufactures/providers/nutritionists, in order to find the best management ways for the prevention of health problems, maximization of wellbeing, and applying the new concept of personalized nutrition. This Special Issue invites authors to present their challenging experiences in different areas of food/nutrition issues connected with the environment and health. The submission deadline is 15 March 2021. You may send your manuscript at any point from now until the deadline. We look forward to your contribution to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
