# Special Issue

# **Enzymes Function and Application in Food Products and Biomaterials**

# Message from the Guest Editors

Enzymes are biological tools that enable the synthesis or modification of compounds and polymers that are of critical relevance to the food system. However, more importantly, enzymes can be used to create new ingredients or bioactive compounds suitable for high-quality food product development or improved human health, respectively. In this Special Issue, we welcome original research or review manuscripts that showcase the utility of enzymes as efficient tools for various aspects of food research. Specifically, the role of enzymes in creating new food materials will also be a focus. In addition, manuscripts that report on the structure-function properties of enzymes, especially as targets for bioactive molecules are strongly encouraged.

# **About the Journal**

# Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

## **Editor-in-Chief**

# Prof. Dr. Arun K. Bhunia

- 1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
- 2. Department of Comparative Pathobiology, Purdue University, West Lafavette. IN 47907. USA

# **Author Benefits**

# **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

### Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

# **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
