Recent Study On In Vitro Meat

Message from the Guest Editor

The current COVID-19 pandemic has created an urgent need for alternative technology for livestock and forest encroachment issues for meat/protein sources. This Special Issue highlights the importance of in vitro meat which will be an alternative solution. The need of the hour is solving human health issues stemming from emerging infectious diseases, as well as forest encroachment for the sake of livestock expansion, animal welfare, and global demand for animal meat. Despite efforts linked to animal livestock production, the global burden is increased without satisfying the global meat demands. Thus, in vitro meat is a promising technological solution which helps in animal welfare, reduction in emerging infectious diseases, proper utilization of land and other available resources, and environmental benefits.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
