

Special Issue

Microbiology of Processed Foods: Vegetable and Fruit-Derived Products

Message from the Guest Editors

As the of this Special Issue, I would like to invite you to contribute an original research paper or review article focused on the microbiology of processed foods, with a special focus on vegetable and fruit-derived products. The scope of submission includes novel aspects related to the microbiology of foods produced from fruit and vegetables, including the following topics: canned foods, juices, intermediate moisture foods, minimally processed foods and highly perishable foods, and bio-preserved foods, including emerging techniques and the optimized use of starter cultures for the improvement of the different fermentative processes in juices and vegetables, new beverages (like cereal-based drinks), production of functional foods from fruits and vegetables by the addition of “functional” microorganisms. Likewise, analytical methods and prediction models for the traceability of the products and predictive models for the quality and the shelf life of these products are welcome.

Guest Editors

Prof. Dr. Antonio Bevilacqua

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
