

Special Issue

Natural Food Additives: From Source to Application

Message from the Guest Editor

One of the most recent trends associated to innovative food products regards the reduction/elimination of artificial additives and their substitution with bio-based compounds. In turn, natural-based compounds are generally preferred due to their widely recognized health benefits.

This Special Issue is mainly focused on critical aspects associated to the whole production chain of bio-based compounds, inviting researchers to contribute with original research or review articles focusing on particular aspects such as:

Natural species with highest potential as sources of bio-based food additives;

Optimized extraction/purification technologies;

Structural elucidation of isolated compounds;

Stabilization of bioactive compounds;

Protected delivery technologies;

Development of innovative food formulations;

Interaction among shelf-life conditions and overall quality;

Consumers' acceptance studies.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 15 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).
