Special Issue

Preparation of Novel Nanomaterial and Its Application in Food Industry

Message from the Guest Editors

Nanotechnology has offered a wide range of opportunities for the development and application of structures, materials, or systems with new properties in the food industry in recent years. The developed nanomaterials could greatly improve not only food quality and safety but also the foods' health benefits. Therefore, the great potential of nanomaterial has provided a new perspective for researchers to dive deep into the material at the nano level. It is essential to further come up with novel techniques, methods, and products that have a direct application to nanotechnology in food science. This Special Issue aims to provide an overview of the current and projected outcomes made on nanoscience and nanotechnology fields, from nanomaterials design, conception and characterization to its application in a variety of food-related industries. Researchers are invited to submit their up-to-date original research articles, review works, and short communications to this Foods Special Issue: "Preparation of Novel Nanomaterial and its Application in Food Industry".

Guest Editors

Prof. Dr. Hong Wu

School of Food Science and Engineering, South China University of Technology, Guangzhou 510000, China

Prof. Dr. Hui Zhang

College of Biosystems Engineering and Food Science, Zhejiang University, Hangzhou 310058, China

Deadline for manuscript submissions

closed (15 October 2021)

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, Foods has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia
1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA
2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:
JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
