Post-harvest Sustainable Strategies to Improve Agri-Foods Quality and Nutritional Value

Message from the Guest Editor

Agri-foods play a significant role in a balanced, healthy diet; thus, they are considered an important food commodity around the world, and the demand for them is continuously increasing. However, agri-foods are occasionally considered unfit for consumption due to spoilage and waste across the entire food chain. Post-harvest loss is considered to be the most significant loss in the agri-food value chain, necessitating urgent intervention to ensure food security for the future. Therefore, the scientific community is urged to develop sustainable strategies to control post-harvest losses in products and processes, or to produce a more efficient food system. This Special Issue will highlight innovative post-harvest technological strategies for waste reduction, promoting food quality, safety, and shelf-life in sustainable agri-food value chain development.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
