

Topical Collection

Reviews on Food Microbiology, Foodborne Pathogens, and Probiotics

Message from the Collection Editor

In-depth high-level review articles are sought from a well-recognized and well-established research community on topics from state-of-the-art knowledge to new advances and trends, including but not limited to the following: Emerging or neglected foodborne viral, bacterial, and parasitic diseases; Impact of food and food components on pathogen survival, transmission, and pathogenesis; Biofilm formation and the role of small molecules on biofilm formation and inactivation; Foodborne pathogens and microbial ecology in nontraditional protein sources, such as human food; Probiotic microbes and their application in foodborne pathogen prevention, inactivation, and control. We look forward to receiving your contribution to this Special Issue, which will host review papers providing valuable insights into all aspects of food microbiology, foodborne pathogens, and probiotics.

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
