

Special Issue

Wild Edible Plants: Nutritional Value, Phytochemical Composition and Health Benefits

Message from the Guest Editors

This Special Issue is associated with a Bilateral Portugal-Brazil project that aims to study the nutritional profile, chemical composition, sensory aspects, and bioactive properties of different wild edible plants traditionally consumed in Brazil. In this context, and considering that more research is needed on several autochthonous wild plants that are still understudied, we invite researchers to submit unpublished original manuscripts and review papers to compose a Special Issue on several aspects related to wild edible plants, such as their chemical composition in terms of nutrients and minor compounds (minerals, vitamins, carotenoids, flavonoids, etc.), sensory aspects, biological properties (antioxidant, anti-inflammatory, antimicrobial, etc.), new trends and uses in innovative dishes and changes with processing, among others.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Foods (ISSN 2304-8158) is an open access and peer reviewed scientific journal that publishes original articles, critical reviews, case reports, and short communications on food science. Articles are released monthly online, with unlimited free access. Currently, *Foods* has been indexed by the Science Citation Index Expanded (SCIE - Web of Science), PubMed, and Scopus. Our aim is to encourage scientists, researchers, and other food professionals to publish their experimental and theoretical results as much detail as possible. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global food science community.

Editor-in-Chief

Prof. Dr. Arun K. Bhunia

1. Department of Food Science, Purdue University, West Lafayette, IN 47907, USA

2. Department of Comparative Pathobiology, Purdue University, West Lafayette, IN 47907, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, AGRIS, PubAg, and other databases.

Journal Rank:

JCR - Q1 (Food Science and Technology) / CiteScore - Q1 (Health Professions (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 14.9 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
