

Special Issue

Feature Papers of Forecasting 2021

Message from the Guest Editor

As Editor-in-Chief of *Forecasting*, I am glad to announce the Special Issue "Feature Papers of Forecasting 2021". This Special Issue is designed to publish high-quality papers in *Forecasting*. We welcome submissions from Editorial Board Members and outstanding scholars invited by the Editorial Board and the Editorial Office. The scope of this Special Issue includes, but is not limited to, the following topics: power and energy forecasting; forecasting in economics and management; forecasting in computer science; weather and forecasting; and environmental forecasting. We will select 10–20 papers in 2021 from excellent scholars around the world to publish for free for the benefit of both authors and readers. You are welcome to send short proposals for submissions of feature papers to our Editorial Office (forecasting@mdpi.com). They will first be evaluated by academic editors, and, then, selected papers will be thoroughly and rigorously peer reviewed.

About the Journal

Message from the Editor-in-Chief

The new open access journal *Forecasting* provides an interdisciplinary forum for all aspects related to the immensely broad field of time series analysis and forecasting. The range of applications in forecasting is enormous, from energy forecasting or economic analysis of stock indices prediction, climate forecasting, chemical or natural process forecasting, etc. It is the aim of the journal to publish relevant topical contributions for the scientific community of forecasting in a timely manner. We would like to invite you to contribute to the journal by sending us your high quality research papers and would be pleased to welcome you as one of our authors.
