ITISE 2018: International Conference on Time Series and Forecasting

Message from the Guest Editor

We cordially invite you to contribute to our Special Issue of *Forecasting* on the theme of "Time Series and Forecasting". The main goal of this Special Issue, "Special Issue of ITISE 2018", is to advance new science and methodologies in the fields of time series and forecasting. Topics of interest for this Special Issue include, but are not limited to:

- Time Series Analysis and Forecasting
- Economic and econometric forecasting
- Advanced methods and on-line learning in time series
- High Dimension and Complex/Big Data forecasting
- Hybrid advanced methodologies with evolutionary computation techniques to improve forecasting accuracy.
- Forecasting in real problems (finance, transportation, networks, energy, meteorology, e health, environment, etc.)

About the Journal

Message from the Editor-in-Chief

The new open access journal *Forecasting* provides an interdisciplinary forum for all aspects related to the immensely broad field of time series analysis and forecasting. The range of applications in forecasting is enormous, from energy forecasting or economic analysis of stock indices prediction, climate forecasting, chemical or natural process forecasting, etc. It is the aim of the journal to publish relevant topical contributions for the scientific community of forecasting in a timely manner. We would like to invite you to contribute to the journal by sending us your high quality research papers and would be pleased to welcome you as one of our authors.
