

Special Issue

New Advances in Time Series and Forecasting

Message from the Guest Editors

For this Special Issue of *Forecasting*, we are soliciting high-quality original research papers on any aspect of time series analysis and forecasting, with the aim of motivating the generation and use of knowledge and new computational techniques and methods on forecasting in a wide range of fields. The topics of interest include but are not limited to:

- Time series analysis and forecasting
- Econometrics and forecasting
- Advanced methods and online learning in time series
- High dimensional and complex/big data
- Forecasting in real problems

About the Journal

Message from the Editor-in-Chief

The new open access journal *Forecasting* provides an interdisciplinary forum for all aspects related to the immensely broad field of time series analysis and forecasting. The range of applications in forecasting is enormous, from energy forecasting or economic analysis of stock indices prediction, climate forecasting, chemical or natural process forecasting, etc. It is the aim of the journal to publish relevant topical contributions for the scientific community of forecasting in a timely manner. We would like to invite you to contribute to the journal by sending us your high quality research papers and would be pleased to welcome you as one of our authors.
