

## Special Issue

# Emerging Topics in Data-Driven Forecasting Applications

### Message from the Guest Editors

We invite the submission of high-quality manuscripts reporting relevant research contributions addressing various aspects of data-driven forecasting.

Contributions to this Special Issue should be of interest to a large and varied cross-disciplinary audience of researchers and practitioners involved or interested in different aspects of this topic, following an open-science approach of making the research results accessible through open-access publication. The Special Issue welcomes submissions of technical, experimental, and methodological papers, application papers, open-data analysis, and papers on experience reports in real-life contexts. Submissions of “extended versions” of already published works (e.g., conference/workshop papers/PhD theses) should be significantly extended with a relevant part of novel contribution. A brief “summary of differences” between the submitted paper to this Special Issue and the former one must be included.

## About the Journal

### Message from the Editor-in-Chief

The new open access journal *Forecasting* provides an interdisciplinary forum for all aspects related to the immensely broad field of time series analysis and forecasting. The range of applications in forecasting is enormous, from energy forecasting or economic analysis of stock indices prediction, climate forecasting, chemical or natural process forecasting, etc. It is the aim of the journal to publish relevant topical contributions for the scientific community of forecasting in a timely manner. We would like to invite you to contribute to the journal by sending us your high quality research papers and would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, ESCI (Web of Science), RePEc, and other databases.

#### Journal Rank:

JCR - Q1 (Multidisciplinary Sciences) / CiteScore - Q1 (Economics, Econometrics and Finance (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.9 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
