

Innovation, Transition and Reconstruction of Forestry Oriented by Policies

Guest Editors:

Prof. Dr. Maria Nijnik

Head of Land & People Science Group, The Social, Economic and Geographical Sciences Department, The James Hutton Institute, Aberdeen AB15 8QH, UK

Dr. Mariana Melnykovich

School of Agricultural, Forest and Food Sciences, Bern University of Applied Sciences, Länggasse 85, 3052 Zollikofen, Switzerland

Deadline for manuscript submissions:

30 September 2024

Message from the Guest Editors

This Special Issue hopes to address the following questions of high importance (not limited to only these topics):

- How could forest policies foster sustainable governance of forests and what are the roles of diverse stakeholders (e.g., businesses, NGOs, local communities, and international organisations) in putting multifunctional forestry (in different spatial and temporary settings/contexts) on sustainable paths?
- How could bottom-up and top-down approaches in forestry (and their combinations) change “the rules and play of the game” (and promote a sustainable forest bioeconomy, the involvement of businesses in the financing of forest restoration/afforestation projects, the creation of green jobs and improving the well-being of forest-dependent communities and a wider society, etc.)?
- How can the valuation of forest natural assets and ecosystem services help finance nature-based solutions, help resolve conflicts, and prevent and alleviate forest losses that inflict costs on society?

This Special Issue will highlight articles presented at relevant sessions of the XXVI IUFRO World Congress 2024.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
