Message from the Guest Editor

Forest products are increasingly important to mitigate global climate change. With the reduced supply of forest products, especially wood resources, from natural forests throughout the world, monoculture forest plantations are taking centre stage. Wood resources from forest plantations are being used for a multitude of applications and are undergoing extensive research and development (R&D) to ensure their acceptance in the marketplace. Nevertheless, forest products continue to harbour some negative perceptions which affect their utilization, especially in areas which require fire resistance, high durability, etc. In order to offset and lay the foundation for greater forest product utilization to facilitate sustainable growth, this volume of the journal welcomes contributions on the following topics, among others:

- Carbon footprint of forest products;
- Optimum design and manufacture of forest products;
- Market perception for green forest products;
- Future perspectives for forest products in the Sustainable Development Goals (SDGs) era;
- Role of forest products in sustainable growth.

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
