Deadline for manuscript submissions:

closed (31 October 2024)

Message from the Guest Editors

We would like to announce the Special Issue of the journal *Forests*, which will concentrate on articles dealing with different aspects of forest pest management, mainly focused on methods for the detection of forest pests, improving the management options or control methods, and the development of new tools for decision-making. Studies concerned with changes in the ecology of forest pests or their relationship to host plants are also welcome.

Keywords

forest pest management
control methods
disturbance
population dynamics
invasive species
bark beetles
tree diseases
semiochemicals
remote sensing
pheromones
forest health
predisposition

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)
