Message from the Guest Editor

In the last two decades, forest management and chain of custody certification have been among the areas with the most dynamic evolution in the in the field of forestry at a global level. This evolution demonstrates the importance of certification as an instrument used for the market identification of wood products originating from sustainable managed forests. Although forest certification is a voluntary mechanism, governments also play an important role in the forest certification process both as authorities setting out policies, regulatory and institutional frameworks and as forest owners and buyers of wood products. This special issue aims at collecting research articles which try to evaluate how forest certification contributes to the sustainable management of forests, biodiversity conservation and the socio-economic development of the society.

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Cate Macinnis-Ng

Department of Biological Sciences, Faculty of Science, University of Auckland, Private Bag 92019, Auckland 1142, New Zealand

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (Forestry) / CiteScore - Q1 (Forestry)
