Deadline for manuscript
submissions:

closed (30 April 2022)

Message from the Guest Editors

Dear Colleagues,

Silvicultural decisions made at the time of stand establishment can have profound and long-lasting impacts on the trajectory of the new stand. Competition between early-seral vegetation and planted seedlings is often intense, requiring managers to determine the method, intensity, and timing of the vegetation management treatments needed to meet the project objectives. We invite submissions to a Special Issue of *Forests* on the subject of “Vegetation Management Effects on Planted Forests”. Topics for submissions may include, but are not limited to, the following: forest vegetation management; silviculture; reforestation; site preparation; herbicides; biodiversity; forest economics; forest health; modelling; monitoring and so on.

Dr. Carlos Gonzalez-Benecke

Mr. Maxwell G. Wightman

Message from the Editorial Board

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access.

Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank: JCR - Q1 (*Forestry*) / CiteScore - Q1 (*Forestry*)
