

Special Issue

Growth and Stand Dynamics of Unmanaged and Managed Forests Under Global Change

Message from the Guest Editor

This Special Issue will provide an overview of the most recent advances in the field of growth and stand dynamics for both managed and unmanaged forests affected by environmental changes. This Special Issue aims to showcase selected contributors presenting advances in pure and multi-species forest growth rules, unmanaged and managed stand dynamics, and the implementation of conclusions resulting from observations of unmanaged forests that can aid in the modification of the management of managed forests in light of environmental changes.

- Potential topics include, but are not limited to:
- Pure and mixed-species performance in managed and unmanaged forests;
- Managed and unmanaged stand dynamics;
- Forest productivity and stability;
- The growth characteristics of managed and unmanaged forests;
- The resistance, resilience, and recovery of managed and unmanaged forests;
- A modified or new concept of silvicultural intervention in managed forests based on unmanaged stand dynamics;
- Growth models;
- Appropriate silvicultural treatments in managed forests.
- The policy and governance of managed forests.

Guest Editor

Prof. Dr. Maciej Pach

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
