

Special Issue

Forest Plant, Soil, Microorganisms and Their Interactions

Message from the Guest Editors

Forests are the most important terrestrial ecosystem in the world. These can provide diverse ecosystem services such as food production, biodiversity conservation, sand storm prevention, water and soil conservation, nutrient cycling, and carbon sequestration, etc. It is well-known that the plant, soil and microbes do not exist alone in forest ecosystem; rather, they are tightly linked to each other. However, there are still many gaps in our understanding of the plant, soil, microorganisms and their interactions in forest ecosystems. We welcome the contribution of studies on plant functional traits, soil chemical process, soil carbon cycling, soil microbial diversity and their interactions in forests, including case studies, meta-analysis and model studies, to this Special Issue with the aim of promoting forest management.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
