

Special Issue

Diversity, Abundance, Distribution, and Traits of Forests Fungi

Message from the Guest Editors

Forests fungi are still an unrecognized determinant of forests life, and from which, ultimately, people benefit. Knowledge on forests fungi is fundamental for understanding how co-occurrence and networking among species shape the continuum of life above- and belowground. This Special Issue plans to give a holistic overview of the most recent advances in forests fungi knowledge and their applications. This Special Issue is aimed at selected contributions on advances in diversity, abundance, distribution, and traits of forests fungi with regard to their significance to life. Potential topics include, but are not limited to:

- Ancient forests fungi
- Forests fungi, people, planet
- Forests fungi and carbon and nutrient cycles
- Forests fungi as natural and biotechnological resource
- Urban forests fungi
- Public awareness of forests fungi
- Future perspectives of forests fungi policy and planning

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
