

Special Issue

3D Remote Sensing Applications in Forest Ecology: Composition, Structure and Function

Message from the Guest Editors

In this Special Issue of *Forests*, we encourage state-of-the-art scientific works from all relevant fields, including experimental studies, method developments, model validations and reviews dealing with the general topic of 3D remote sensing-assisted applications in monitoring forest composition, structure and function. In particular, contributions covering the following sub-topics are welcome:

3D remote sensing-assisted analysis of forest composition

Advanced application of 3D sources of data for deriving forest structural attributes

3D remote sensing-assisted analysis of forest function

With this Special Issue we aim at showing applications in forest ecology in a broad collection of methods/sensors/platform combinations. We therefore encourage submissions employing uncommon data fusion schemes and novel perspectives.

Guest Editors

Dr. Hooman Latifi

1. Department of Remote Sensing, University of Würzburg, Würzburg, Germany

2. Department of Photogrammetry and Remote Sensing, Faculty of Geodesy and Geomatics Engineering, K. N. Toosi University of Technology, Tehran, Iran

Dr. Rubén Valbuena

School of Natural Sciences, Bangor University, Bangor LL57 2PZ, UK

Deadline for manuscript submissions

closed (31 July 2019)

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
