

Special Issue

Advances in Biological Control of Forest Diseases and Pests

Message from the Guest Editors

The Special Issue “Advances in Biological Control of Forest Diseases and Pests” focuses on the advances in biological control of forest diseases and pests, which have gained significant attention in recent years due to their potential to reduce the reliance on traditional chemical-based control methods. This Special Issue aims to present the recent advances in the development and use of biological control and bio-based measures against forest pests and pathogens. Moreover, it highlights the potential of these biological control methods to be more environmentally friendly, sustainable, and effective than traditional methods. The Special Issue covers a wide range of topics, including the use of microorganisms, natural enemies, and genetic engineering to control forest pests and diseases. Integrated insect pest and pathogen management concepts based on natural biocontrol agents will also be encouraged.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
