

## Special Issue

# Adaptive Physiology of Forest Plants: Mechanisms, Strategies, and Responses to Environmental Challenges

### Message from the Guest Editors

Forest ecosystems are dynamic environments where plants constantly face a multitude of abiotic and biotic stressors, including drought, extreme temperatures, nutrient limitations, pests, and diseases. These challenges are further exacerbated by the increasing impacts of climate change, leading to shifts in forest composition and function. To survive and thrive under such conditions, forest plants exhibit a remarkable range in adaptive physiological mechanisms and strategies. This Special Issue, titled "Adaptive Physiology of Forest Plants: Mechanisms, Strategies, and Responses to Environmental Challenges", aims to explore the diverse physiological and molecular pathways that enable plants to cope with environmental constraints. By addressing key questions on stress tolerance, resource acquisition, and ecosystem resilience, this Special Issue seeks to contribute to our understanding of plant adaptation and its implications for forest conservation and management in the face of global change.

### Guest Editors

Dr. Lazar Kesić

Institute of Lowland Forestry and Environment, University of Novi Sad,  
Antona Čehova 13d, 21000 Novi Sad, Serbia

Prof. Dr. Janusz Zwiazek

Department of Renewable Resources, University of Alberta, 442 Earth  
Sciences Bldg., Edmonton, AB T6G 2E3, Canada

### Deadline for manuscript submissions

25 August 2025

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

---

### Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,  
I-25121 Brescia, Italy

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
