Special Issue

Multiple-Use and Ecosystem Services of Forests—3rd Edition

Message from the Guest Editors

As we face the challenges of climate change, biodiversity loss, and increasing societal demands for natural resources, forest ecosystem management is becoming a cornerstone for sustainable development. This Special Issue—now in its third edition—invites contributions that explore and advance the science and practice of multiple-use forest management, with a particular focus on integration, optimization, and assessment of forest ecosystem services. Submitted papers for publication in this Special Issue will undergo a rigorous peer-review process to ensure the timely and wide dissemination of research fundings, results and applications. We welcome submissions that:

- Advance policy and governance for integrated ecosystem service management;
- Apply spatial analysis and modeling for multifunctional landscapes;
- Showcase participatory approaches and tools for inclusive decision-making;
- Link ecosystem services to rural development, climate mitigation, or nature-based solutions;
- Explore assessment, marketing, or certification of forest ecosystem services.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
