

## Special Issue

# Sustainable Forestry: Linking Economics and Management

### Message from the Guest Editors

This Special Issue aims to explore how sustainable forest management can be aligned with economic instruments for climate change mitigation. The focus is on integrating forest-based carbon activities into existing and emerging carbon pricing mechanisms—such as Emissions Trading Systems (ETSs) and carbon taxes—as well as examining policy readiness in countries that have not yet adopted these instruments. We invite contributions that address the following:

- The role of forests in compliance and voluntary carbon markets;
- Economic valuation of forest ecosystem services in carbon accounting;
- Comparative analysis of global ETSs and carbon tax systems;
- Governance challenges in integrating forests into climate finance frameworks;
- Design and implementation of incentive schemes for afforestation, reforestation, and conservation;
- Policy options and financial tools for countries without carbon pricing mechanisms.

This Special Issue invites original research and reviews at the intersection of sustainable forest management (SFM), economics, and climate mitigation.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.8 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2025).
