Special Issue

Phyllophagous Forest Insects: Biodiversity and Ecology

Message from the Guest Editor

Phyllophagous insects, such as beetles, aphids, butterflies, bugs, etc., play an important role in forest ecosystems all over the world. Many of them are forest pests. However, there are serious gaps in our current knowledge of their ecology and biodiversity. Interactions between phyllophagous insects and their host plants are particularly poorly studied. We invite colleagues to share new data on the geographical distribution, diet, feeding behavior, life cycle, and other aspects of insects feeding on shrubs, grasses, and the leaves of forest trees. Recent data indicate that invasions of phyllophagous insects have become much more frequent in the last three decades. Therefore, articles on invasive species are particularly encouraged. Both original research papers and reviews are welcome.

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have Forests be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia, I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
