

## Special Issue

# Physical, Chemical and Biological Properties of Soil for Ecological and Environmental Restoration

### Message from the Guest Editors

Soil is an important influencing and assessment factor for ecological and environmental restoration processes, especially in the ecological and environmental restoration of abandoned metal mining sites, ecological restoration of desert, ecological restoration of the Loess Plateau and remediation of polluted soils. Therefore, studies of physical, chemical and biological properties of soil for the purpose of ecological and environmental restoration and studies carried out during such processes are of great importance. This Special Issue plans to give an overview of the most recent advances about soils in the field of ecological and environmental restoration. Potential topics include, but are not limited to:

- Physical, chemical and biological properties of soil for the ecological and environmental restoration of abandoned metal mining sites;
- Physical, chemical and biological properties of soil for the ecological restoration of desert;
- Physical, chemical and biological properties of soil for the ecological restoration of the Loess Plateau;
- Heavy metal pollution and remediation of soils.

## About the Journal

### Message from the Editor-in-Chief

*Forests* (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

#### Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
