

Special Issue

Biodiversity in Forests: Management, Monitoring for Conservation

Message from the Guest Editors

The monitoring, management, and conservation of forest biodiversity are essential to ensuring the health of forests, their ability to provide vital ecosystem services, and their value as a refuge for wildlife and a source of human wellbeing. The purpose of this Special Issue is to analyze the challenges and solutions in the implementation of management strategies for forest conservation. Researchers from various disciplines, such as theoretical ecology, landscape management, policy, and sociology, are invited to contribute papers that address the topics raised in this Special Issue.

Guest Editors

Dr. Víctor Rincón

Dr. Javier Velázquez Saornil

Dr. Derya Gulcin

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
