

Special Issue

Climate-Driven Radial Growth Patterns of Forest Trees in Mountainous Regions

Message from the Guest Editors

This Special Issue welcomes a wide range of research and review articles that explore the climate-driven factors, growth responses, and dynamic forecasting of forest trees in mountainous areas. The scope includes, but is not limited to, the following areas

- The long-term monitoring and survey of multiple dendrochronological indicators;
- Cambial dynamics at local, regional, and even terrestrial scales;
- The influence of climate factors (e.g., temperature, precipitation) on radial growth patterns;
- Elevation gradients and their impact on tree growth dynamics;
- Dendroclimatic reconstructions and their applications in understanding historical climate variability;
- Roles of tree species composition and forest structure in modulating radial growth responses to climate;
- The modeling and prediction of future tree growth patterns under changing climate scenarios.

Guest Editors

Dr. Wentao Zhang

Dr. Liang Jiao

Dr. Anastasia N. Christopoulou

Dr. Yiping Zhang

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
