

Special Issue

Impacts of Nitrogen Deposition on Litter Decomposition and Nutrient Cycling

Message from the Guest Editors

This Special Issue aims to explore the complex interactions between nitrogen deposition, litter decomposition, and nutrient dynamics, with a particular emphasis on how these processes influence ecosystem structure and function. We welcome contributions from both experimental studies and long-term field observations. Potential topics include, but are not limited to, the following:

- Microbial and biochemical mechanisms driving nitrogen-induced changes in litter decomposition;
- The interplay between nitrogen deposition and phosphorus availability in regulating nutrient cycling and ecosystem stability;
- The ecological consequences of altered litter decomposition on carbon sequestration, soil fertility, and forest productivity;
- Comparative studies assessing the effects of nitrogen deposition across different climatic regions, ecosystem types, and land-use patterns;
- Strategies for mitigating the ecological impacts of nitrogen deposition on litter decomposition and broader ecosystem functions.

Guest Editors

Prof. Dr. Benjamin L. Turner

Dr. Min Duan

Prof. Dr. Shouqin Sun

Deadline for manuscript submissions

31 October 2025

About the Journal

Message from the Editor-in-Chief

Forests (ISSN 1999-4907) is an international and cross-disciplinary, scholarly forestry journal. The distinguished editorial board and refereeing process ensures the highest degree of scientific rigor and review of all published articles. Original research articles and timely reviews are released online, with unlimited free access. Our goal is to have *Forests* be recognized as one of the foremost publication outlets for high quality, leading edge research in this broad and diverse field. We therefore invite you to be one of our authors, and in doing so share your important research findings with the global forestry community.

Editor-in-Chief

Prof. Dr. Giacomo Alessandro Gerosa

Department of Mathematics and Physics, Catholic University of Brescia,
I-25121 Brescia, Italy

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, GEOBASE, PubAg, AGRIS, PaperChem, and other databases.

Journal Rank:

JCR - Q2 (Forestry) / CiteScore - Q1 (Forestry)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.1 days after submission; acceptance to publication is undertaken in 2.4 days (median values for papers published in this journal in the first half of 2025).
